

The Mobile Sales Tool (MST) Release on April 18th implements the following improvements

Dashboard

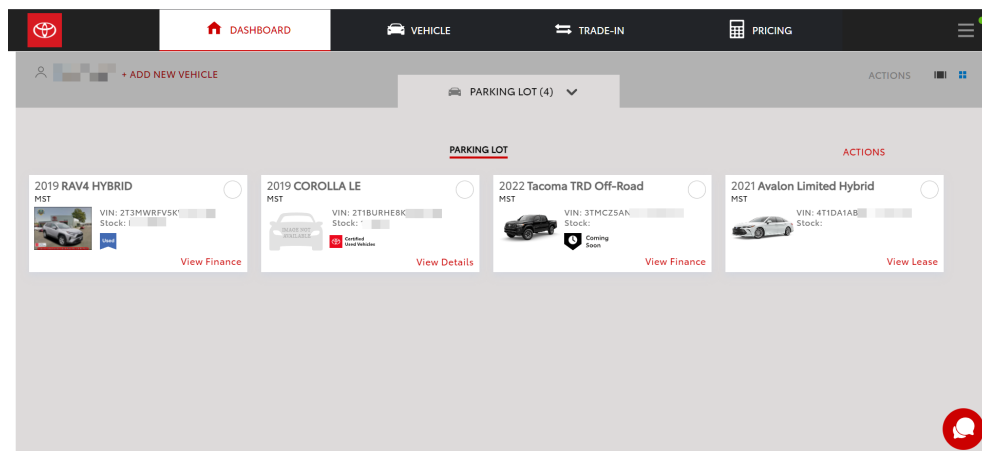

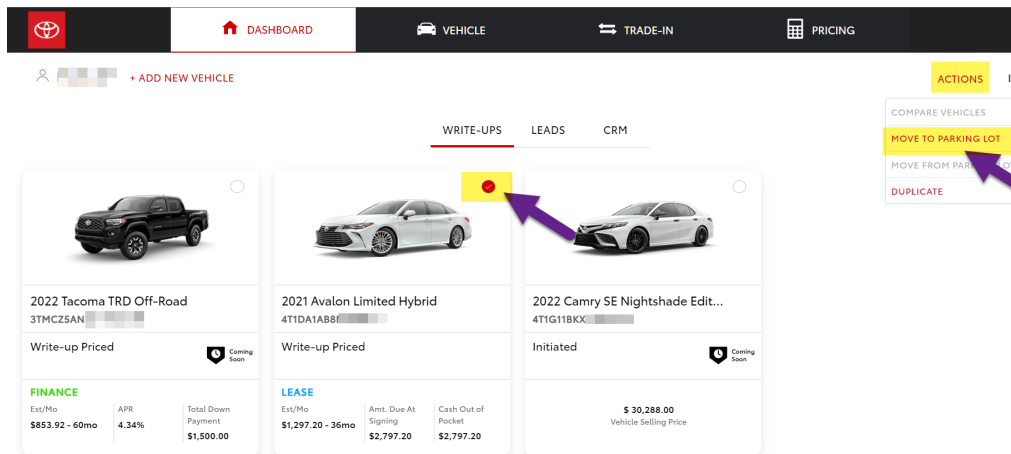

New Design for Parking Lot Cards

Look for redesigned cards in the Parking Lot section of MST. The cards are reformatted to take into account the many kinds of images (stock, dealer, none), as well as banners (certified, used, coming soon).

The Parking Lot is a space to place write-ups that are no longer needed, and don't need to be a distraction to the sales experience.

To move a vehicle to or from the parking lot, click the circle in the upper right and choose 'Move to/from Parking Lot' in the Actions menu.

Keep in mind – There is no delete for write-ups. Write-ups are deleted 90 days after last modified date.

Bug Fixes

Price Accordion – Order of Elements

An issue existed where the order of items in the price accordion would vary depending on the page of the MST experience. This has been fixed to be consistently displayed.
